- Math and Algorithms in Scratch and Python / June 29-July 3
- Robotics with Lego and Arduino / July 6-10
- Hacking and Cracking with Python II / July 13-17
- Game Design in Python and Scratch / July 20-24
- Math and Algorithms in Scratch and Python II / July 27-31
- Board Game Design / August 3-7

---

### Tuition

Tuition is discounted for multiple sessions as follows:

Single session: \$700/ student

3 or more sessions: \$650/ student

Please note that in summer 2020 we will only be accepting digital payment in the following forms:

Paypal – andrew@poly-ed.com

Venmo - @PolyEd

Zelle (Chase QuickPay) – andrew@poly-ed.com

Payment in full is required prior to the registered weeks, with 50% required to reserve your space. Space is intentionally limited to preserve a small class size.

Please note that students will be differentiated according to their level and experience. Please share your student’s past experiences in math and programming to help us find the best fit.
